*Webhosting Services

- 7/24 access with over 99% guaranteed availability during weekday hours; 95% uptime nights and weekends
- Redundant data backup
- High capacity/high speed servers with SSL 128-bit encryption
- Microsoft SQL for secure database integrity
- Email and facsimile supported
- Interfaces with Microsoft Office[®] for document and spreadsheet generation

WHY EYECOM³?

Eyecom³ is the only browser-based optometric software solution on the market today. Acknowledged as the industry leader in computerized recall and patient target marketing, Eyecom³ controls practice costs and maximizes your return-on-investment.

- **EASY-TO-USE** Eyecom³ is a comprehensive eye care management solution that efficiently manages your office by employing internet technology.
- **ACCESS ANYWHERE** Eyecom³ reduces the administrative burden of running your office, freeing you to concentrate on your patients.
- **SECURE** Eyecom³ supports moving to a "paperless practice" with electronic medical records, electronic claims filing, digital photos and online inventory management.
- **EFFICIENT** Easy-to-use screens and menus, coupled with dozens of standard letters and reports, make Eyecom³ a turn-key solution.
- **RELIABLE** Powerful task automation is available with areas that can be customized for your practice.
- **HIPAA** Eyecom³ supports your HIPAA compliance efforts with encrypted log-ins and tiered user rights; electronic claims for Medicare and HCFA are fully supported.
- **KNOWLEDGEABLE** HealthLine Systems, the developer of Eyecom³, is an industry leader in healthcare with a proven history of superior software solutions and quality client services since 1986.

web-based • leading technology • knowledgeable staff • user-friendly

EYECOM³ KEY FEATURES

PATIENT INFORMATION

The patient record is the core of the system. All activity is recorded for quick and easy referencing. EyeCom³ includes:

- Easy-to-use, comprehensive recall
- Customized patient communications including walkout, thank you, appointment and exam letters
- Comprehensive history and clinical information

ELECTRONIC MEDICAL RECORDS

EMR eliminates paper medical record files including filing, misfiling and lost information. Authorized access is available from any Internet accessible computer.

EMR includes:

- Unlimited number of exam records per patient; full documentation using SOAP structure
- Online medical history
- More recent refraction, glasses and contact lens prescriptions
- Scanned images including fundus, topography and visual field

ACCOUNTING

Easy to use accounting functionality with audit trail capabilities ensures data integrity.

Accounting includes:

- Streamlined line item accounting functionality
- Electronic ledger for charges, payments and adjustments
- Walkout statements and payment receipts
- Instant HCFA-1500 forms

ELECTRONIC CLAIMS

Streamline your billing process and reduce payment time with electronic claims.

Claims includes:

- Medicare and HCFA internet claims submission
- Direct and clearing house processing
- Receive payments in less than 14 days
- Support HIPAA compliance

APPOINTMENT SCHEDULING

Automate your appointment scheduling with an online solution. Scheduling includes:

- Create calendars by doctor, office or station
- Rapidly search and schedule next available appointments

SUPERIOR CLIENT SERVICES

- Toll free support between the hours of 7:00 am – 5:00 pm PST, weekdays
- After-hours on-call support for emergencies available
- Internet help desk with on-line manual, tutorials and other resources
- Web-based technical services
- Pre-loaded letters and reports
- Data transfer services available from most systems
- Comprehensive web-based training
